# ***Focus on Fungi***

a presentation by  
**Paul George**

**Friday 9<sup>th</sup> September, 7.30pm at Strath Creek Hall**

Come along and learn about our fascinating local fungi.

What are they exactly? What is their lifestyle and their role in the ecosystem?  
And, importantly, what is their relationship to native wildlife ?

Paul is Convenor of the Field Naturalists Club of Victoria's Fungi Group.  
He will answer all of these questions and more. His talk will be fully illustrated with his own photographs. He will also be happy to identify any fungi photos you bring along.

Light refreshments will be served.

If you plan to come, please contact  
David Wakefield on 5780 1225 or  
email: [focusonfauna@gmail.com](mailto:focusonfauna@gmail.com)
